EPA-R5-2017-011924	Ms. Lisa R Hook		I am concerned that the property I am renting through a federally funded homeless assistance grant has contaminated well water with a high lead count and also possible asbestos, toxic mold and radon. My carbon monoxide detector and smoke ionization detectors go off and the landlord tells me I am paranoid. He has had to shut the well off numerous times and has told me to use bleach when washing the dishes and bathe in the chlorinated pool at times. I have two school age children and a pet. The housing agency says they do not inspect or test for contaminated water. I also need to know if this property is doing business as an adult day care center without my knowledge or consent ... I am not in need of such service.	9/29/2017
EPA-R1-2017-011926	James Malaney	BB&J	I would like any information regarding any known, removed, or installed Aboveground Storage Tanks/Underground Storage Tanks, hazardous materials incidences or storage, and/or land/water contamination at the following address: - 1776 Lock Drive, Leominster, Massachusetts. Any information you can provide for this property is appreciated.	9/29/2017

EPA-HQ-2017-011916	Mr. David Henson	F.B.I. FEOS C.A.!!!!!!	I would like to request enough funds to build a desalination plant. Based on procuring wood chips to help the non-industrial private landowners help thinning and harvesting their stands based on recommendations provided by the state and the federal government. This plant can provide a two-fold system basing it's power source from pelletized wood chips along with providing another valuable source to the public and private systems by using already existing technology. One plant that can be used as a model that already provides a clean source of desalination of ocean water in the Tampa Bay, Florida area. I would have to look further to find the exact amount of clean water that is provided from the filtering process and power to run the plant would be pelletized wood chips which is a clean and renewable resource. This plant would have to supply millions of gallons of water a year to meet expected demands that the environment and public would need to provide drinking water and irrigation waters for crops or any other need. If you are interested in a project like this I will be available to discuss further these plans that would benefit many people being that over 50% of the population lives in the coastal areas. These desalination plants are needed desperately in the agricultural states in the Southeast and anywhere else that a source of non-salt water can be used within the US or around the world. Please contact me as soon as possible because this would be a great project to build the local economies while providing jobs for people in and around the pipe structures needed to pump the water and plants from the Lower Coastal Areas. If this project would interest your governmental agency please contact me for the benefit of the environment. EPA-R2-2017-011852	Kayo Mullins	Waters & Kraus LLP	<p>We are requesting a document referenced in the links below. This was an internal report titled "Operation Bootstrap", distributed by the Hooker Chemicals Corporation regarding their Niagara Falls facility. The report was conducted in 1975 but then appears to be distributed in 1979. The EPA had a copy of this report which is what we are requesting. Operation Bootstrap, a 1975 company management study of the Niagara Plant documenting obsolete equipment, substandard environmental conditions and massive discharging of waters into sewers leading to the Niagara River. "The 1975 Report, called 'Operation Bootstrap', was prepared by internal engineers and doctors for the Hooker Chemicals and Plastics Corp., a subsidiary of Occidental Petroleum." https://www.newspapers.com/newspage/160831662/ The 1975 report, called "Operation Bootstrap," was prepared by internal engineers and doctors for the Hooker Chemicals and Plastics Corporation, subsidiary of Occidental Petroleum. It was obtained by The New York Times, television station WKBW in Buffalo and Michael Brown, an environmental writer, from a supervising engineer who was dismissed two years ago, allegedly for complaining about unsafe emissions from the plant. According to Michael J. Bayliss, the former supervising engineer for plant efficiency who released the report, it was Hooker company policy "to tell workers the dangers of the chemicals they worked with." He said he had told Federal safety officials about the problems but had not yet given them a copy of the report. EPA-R5-2017-011799	Karyn Selle		Looking for information regarding cobalt use at GrafTech 12900 Snow Road, Parma, Ohio.	9/26/2017

			This request under the Freedom of Information Act concerns the Cornell-Dubiller Electronics Inc. (CDE) Superfund Site at 333 Hamilton Boulevard, South Plainfield, NJ 07080. The 501(c)(3) charity, Edison Wetlands Association (EWA), requests any documents referencing Middlesex Water Company, groundwater monitoring activities conducted by or for the United States Environmental Protection Agency (USEPA) from the years 2012 to 2017, and any document referencing USEPA's estimate of the extent of the CDE polychlorinated biphenyl (PCB) groundwater plume (by acreage or other unit of measure) from the years 2015 - 2017. The EWA is facilitator of the CDE and Woodbrook Rd. Community Advisory Groups (CAGs); a review of the requested documents will give EWA the tools it needs to create fact sheets, newsletters, presentations, and other media, in simple-to-understand language, so that the community members, including those new to the CAG or the sites as a whole, can have meaningful participation in the upcoming CAG meetings. EWA is providing technical assistance to the CAG at no cost to the community or USEPA; requested documents will also be reviewed by technical advisor(s) for dissemination to the CAG. This request will significantly contribute to public understanding of the Superfund process, the USEPA, and other government agencies' roles in the monitoring and remedial process of the site.	9/26/2017

			FOIA Request for any and all written communication, memos, letters or reports regarding the Grenada MFG site or the Moose Lodge Road (MLR) site or the Eastern Heights subdivision located near Grenada MS, and other sites within 2 miles of the Grenada MFG site in Grenada MS which were created or received by any and all EPA Region 4 hydrogeologists (specifically Mr. Ahsanuzzaman, Mr. Bentkowski, Mr. Jenkins, Mr. Osteen, Ms. Wischkaemper or others), risk assessors or other staff of the EPA Region 4 Scientific Support Section since environmental investigations began in the site in the late 1980s. It is believed that there are unlikely to be any such communication or documents to or from this group regarding the Grenada MFG and MLR sites prior to January 2011, but this should be confirmed by EPA Region 4. Documents being sought include all correspondence, memos containing review and comments or requests for additional investigations regarding site-related reports, work plans submitted to EPA Region 4, presentations at meetings, etc., regarding the Grenada MFG site, the Moose Lodge Road site or the Eastern Heights subdivision. Electronic responses are much more desirable than paper copies of the documents and information being sought in this request. Additional details are provided in the WORD file attached.	9/22/2017

On behalf of the Bay Area Clean Water Agencies (a local government agency created by a joint powers agreement among San Francisco Bay area municipal wastewater treatment plants) and its members, including the City of Palo Alto, I write to request emailed (electronic) copies of two scientific studies that US EPA OPP relied on in its evaluation of municipal wastewater treatment plant process interference for the pesticide dichlobenil and its degradate BAM. If US EPA Data Evaluation Records exist for these reports exist, we request emailed (electronic) copies of these as well. We please request a timely response, as we need this scientific information to complete our peer review of risk assessment for dichlobenil, for which there is a public comment deadline of 11/13/17. Although I did not request a fee waiver, my contract does not have ready provisions for paying direct costs, and approval is difficult, as government agencies do not normally have to pay other government agencies for public information related to their ability to operate their facilities. Given the nature of this request, I am hopeful that the costs associated with this request will be below the minimum billing threshold. The two scientific studies are: MIRD 49051902: Mead, C. (2002) Dichlobenil: Assessment of the Inhibitory Effect on the Respiration of Activated Sewage Sludge. Project Number: 1133/011. Unpublished study prepared by Safepharm Laboratories, Ltd. 27p. EPA-R6-2017-011641	Lisa Song	ProPublica	I am writing to narrow the scope of my request EPA-R6-2017-011641, in order to speed up its processing time. I am only asking for the data points for benzene. In other words, I am requesting: "The EPA air monitoring data referenced in this EPA press release from September 8, 2017: https://www.epa.gov/newsreleases/epatceqcity-houston-harvey-update. The data were gathered by EPA“s mobile laboratory (â T&A″ on September 5 and September 6, 2017, in the neighborhood next to the Valero refinery in southeast Houston. The requested data were represented on two EPA-released maps, but the maps do not show individual data points or measurements. I am requesting all of the available air-monitoring data associated with the benzene measurements taken over those two days, including but not limited to the date and time of each benzene measurement; the measured concentration of benzene in each measurement; the unit(s) the benzene concentrations are measured in (e.g. ppb or micrograms/cubic meter); the wind direction; the wind speed; the duration of each measurement; the detection limit of each measurement; and the geographic coordinates of where each measurement was taken. The fields listed in the previous sentence are representative of the data associated with a typical air monitoring dataset″if there are additional fields included in the data, please include them as well. I am simply requesting all of the benzene data associated with the cited TAGA runs on September 5-6, 2017.	9/19/2017

EPA-R2-2017-011627	Neil Curri		Any records documenting hazardous waste generation at 70 West Cedar Street, Poughkeepsie, NY (site name: BLOOM LEON R ESTATE OF). The site is listed as a historic large quantity generator or several types of waste. However, our understanding of the use history of the property is not consistent with any type of industrial use that would generate these types of waste. Our research indicates that the building at the site (at 74 West Cedar Street) was built in 1973, and has been in use as an office building since that time. Prior to this, the site was vacant. There is no site currently listed at 70 West Cedar Street.	9/19/2017

EPA-HQ-2017-011562	Mr. Michaelangelo C Hamilton		This letter is a request in accordance with the Freedom of Information Act (5 U.S.C. 552. And the corresponding department/agency. The request is made by myself, Mr. Michaelangelo C. Hamilton, behalf of the public domain and for noncommercial purposes. In summation, this request seeks all records relevant to current U.S. strategy to combat anthropogenic climate change and all Executive Orders made by President Donald J. Trump in this regard. Background The media has reported extensively on the policy rollbacks and Executive Orders President Donald J. Trump made days after inauguration. As the Washington Post reported on February 20th, 2017, "President Trump is preparing executive orders aimed at curtailing Obama-era policies on climate and water pollution, according to individuals briefed on the measures." The American people have the right to know more about the United States' strategy to handle climate change and the official scientific and logical rationale for these decisions being made by the Trump administration. Pursuant to FOIA, 5 U.S.C. § 552 et seq., I hereby request that the Environmental Protection Agency produce the following within twenty (20) business days: Requested Records For the purposes of this request, the term "records" shall apply to all information qualified under 5 U.S.C. 552, including but not limited to, any unedited scientific findings, charts, logs, memorandums, notes, writing of any kind, policies, procedures, guidelines, agendas, handouts, reports, transcripts, video, audio recordings, photos, or other material. The term also includes all related information formed, stored, received, or delivered in any digital or electronic form, including but not limited to, electronic mail, instant messaging, or Facebook messaging, iMessages, text messages, or any other form of communication in relation to U.S. strategy on climate change under the Trump Administration. EPA-HQ-2017-011560	Douglas Mackenzie		Dear EPA: I request copies of records under the Freedom of Information Act (5 U.S.C. 552) containing data that refers to and/or describes the dispersal of materials in the atmosphere visible over Monterey County, California on September 16, 2017, including but not limited to, the composition(s) of the materials dispersed and the quantities of each material dispersed. On information and observation, I have probable cause to suspect that the materials dispersed include at least Weisbach and Weisbach-like materials (such as the oxides of metals), coal ash, and materials characterized by frequency-dependent emissivity. In my considered opinion, a search of your electronic files using the names of these materials as search terms will likely result in records responsive to my request. On further information and observation, I have probable cause to suspect that at least some of the materials dispersed in the atmosphere are dispersed from aircraft flying to and from Fort Hunter Liggett in southern Monterey County. The attached photo was taken this afternoon at 1:53 p.m. PDT and shows dispersal of material in the atmosphere. In order to help you determine my status for the purpose of assessing fees, you should know that I am an individual acting on my own behalf and on behalf of Spirit and Life on Earth and I have no intention of using the information commercially. I have included a telephone number at which I can be reached if necessary to discuss any aspect of my request. Sincerely, /Douglas Mackenzie/ 559-855-4809	9/18/2017

EPA-R6-2017-011516	Mr. Ted W Bridis	University of Florida	<p>Requesting records for which EPA Region 6 is the custodian for the portion of my FOIA request (see attached letter) in which I requested copies of the aerial imaging that was the basis for this statement, along with any analyses, presentations, memoranda or other records discussing what the aerial imaging showed or did not show, between Aug. 25, 2017-Sept. 15, 2017. Requesting copies of phone logs, recordings, emails, text messages, memoranda or other records representing or reflecting communications or notes between EPA Region 6 and specified in the letter about these initial EPA assessments, sent or received between Aug. 25, 2017-Sept. 15, 2017 between EPA Region 6 offices (the Office of the Region 6 Regional Administrator and Deputy Regional Administrator; the Region 6 Superfund Division; or the Region 6 Compliance Assurance and Enforcement Division) with the following EPA HQ offices (Office of Enforcement and Compliance Assurance, which enforces the Comprehensive Environmental Response, Compensation and Liability Act; the Office of the Administrator, who has said Superfund is one of his top policy priorities; the headquarters Office of Public Affairs). Requesting only publicly available information and excluding confidential business information (and do not request CBI substantiation) should any confidential business information be found. I agree to rolling responses every 30 days.</p>	9/15/2017
EPA-R6-2017-011512	Mr. Reese Dunklin	The Associated Press	<p>On behalf of the Associated Press, I request all correspondence between the EPA administrator and his staff and any employee of the Federal Emergency Management Agency from 8/1/2017 to 9/15/2017 regarding any violations, site inspections, compliance requirements, flood risks, flood control, flood prevention, flooding, enforcement actions, regulatory oversight, emergency response, hazardous waste disposal, accident planning or prevention, air quality testing or sampling, water quality testing or sampling related to the facility located at 18000 Crosby Eastgate Road in Crosby, Texas (EPA facility identifier 100000124457) and presently owned by Arkema. The correspondence should include anything whether sent or received via email, fax or postal mail. I am requesting publicly available information, not confidential business information. I&#x201d like to get responsive records emailed to me as PDFs at rdunklin@ap.org or, if another request is already being processed and records are being produced in another format, I will accept records in that format in order to expedite release of records to the AP and lessen the workload on your staff. I agree to the release of records on a 30-day rolling basis. I also ask that you communicate with me by email or phone at 972 502 7571 to expedite the FOIA process. Thank you.</p>	9/15/2017

EPA-HQ-2017-011478	Christopher Flavelle	Bloomberg News	Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552 et seq. ("FOIA"), I request access to and copies of documents showing the number of people assigned to the Environmental Protection Agency (EPA) from institutions of higher education under the Intergovernmental Personnel Act Mobility Program, as of two dates: September 14, 2017, and September 14, 2016 ("the First Request"). I also request access to and copies of documents showing the specific institutions of higher education with which those people were associated, and the number of people assigned to the EPA under the Intergovernmental Personnel Act Mobility Program from each participating institution of higher education, for both of the dates in question (the "Second Request"; together with the "First Request"; the "Records"). The Office of Personnel Management states on its website (https://www.opm.gov/policy-data-oversight/hiring-information/intergovernment-personnel-act/?url=Provisions) that "it is imperative that agencies maintain accurate records of all Intergovernmental Personnel Act assignments." Accordingly, I am hoping that the Records will be easily accessible and your agency will be able to provide them to me in a timely manner. To the extent necessary, I would appreciate your sending me the documents on a rolling basis rather than waiting for a complete response. I am further requesting that the Records be provided to me on computer files or, if not maintained on computer files, in the same format as they are currently maintained at the EPA.	9/14/2017

EPA-R4-2017-011494	Yvonne Hegney		Unbeknownst to me, the electric company sprayed 2 acres on my property with both Rodeo and Polaris. Within 24 of the spraying, I was on the acreage, dressed in only shorts, halter top, and flip flops, taking pictures and physically contacting all the foliage. I didn't know to bathe or change clothes, either. I've read about the 48 hour re-entry time for imazapyr, as well as the time to re-enter after treatment with glyphosate. I became very ill the next day after exposure, continue to feel unwell three months later, and I would like to know what I'm dealing with as far as the inert ingredients in both of these products. If I know what the inerts are, I might be able to locate a medical treatment to counter this illness. Thank you so much for your help. Yvonne Hegney	9/14/2017

A list of the levels of chemicals that were found in those particular wells in that area (near Harrison St and between S. 6th St. and 11th St.) throughout the EPA's testing of those wells (from the very beginning of testing until the EPA finished testing the levels of chemicals in people's drinking wells)	9/13/2017
EPA-R5-2017-011456	Mr. Dana J Stotsky		I am requesting records EPA possesses regarding any substitution of counsel in the EPA Region 5 FIFRA Creation Farm matter. The 'matter' is based on a Notice of Intent to file Administrative Complaint, which is attached to this request. My old firm, Jacobs Stotsky PLLC, represented Creation Farm in the initial stages of the enforcement matter. My old firm was the attorney of record for Creation Farm. Jacobs Stotsky PLLC was dissolved on Feb. 17, 2017. I am requesting records which show or establish that Jacobs Stotsky PLLC is no longer the attorney of record for Creation Farm, and the date or dates on which this occurred. Providing me with the requested records cannot reasonably be expected to cause harm under any of Exemption 7–s six subparts. EPA–s possession of a record it did not create or compile for law enforcement purposes, but rather received as part of a pre-filing enforcement matter and containing no evidentiary value, is not subject to Exemption 7. Notices of attorney representation are filed in due course all the time. Had Region 5 elected to file a complaint in this matter, the notice of attorney representation would reside in the Regional Hearing Clerk–s docket, and be available for public inspection. Thank you.	9/13/2017

The specific correspondence sought are those to and from emails from any of the aforementioned domain names and the following officials in the Office of Chemical Safety and Pollution Prevention: Wendy Cleland-Hammett Nancy B. Beck Louise P. Wise Oscar Morales Jeffery Morris Barbara Cunningham Maria Doa David Widawsky Pamela Myrick Tanya Mottey Tala Henry Larry Reisman I hereby request such correspondence from 1/1/17 to the present. If it is your position that any portion of the requested records is exempt from disclosure, I request that you provide it with an index of those documents as required under Vaughn v. Rosen, 484 F.2d 820 (D.C. Cir. 1973), cert. denied, 415 U.S. 977 (1972). As you are aware, a Vaughn index must describe each document claimed as exempt with sufficient specificity to permit a reasoned judgment as to whether the material is actually exempt under FOIA. In Founding Church of Scientology v. Bell, 603 F.2d 945, 949 (D.C. Cir. 1979). Moreover, the Vaughn index must describe each document or portion thereof withheld, and for each withholding it must discuss the consequences of supplying the sought-after information. In King v. U.S. Dep't of Justice, 830 F.2d 210, 223-24 (D.C. Cir. 1987) (emphasis added). Further, the withholding agency must supply a relatively detailed justification, specifically identifying the reasons why a particular exemption is relevant and correlating those claims with the particular part of a withheld document to which they apply. In Mead Data Central v. U.S. Dep't of the Air Force, 566 F.2d 242, 251 (D.C. Cir. 1977).</p>	9/7/2017	
EPA-R6-2017-011225	Mr. Patrick J Fanning		<p>I would like my request to be fulfilled by the 20 day deadline required by 5 USC 552(a)(6)(A). I also request rolling production of records as they become available (not every 30 days). I am requesting redacted production of any privileged or exempted materials and I am also requesting a denial log. I do not request CBI substantiation at this time. There is no date range for items 2 and 3 as those items relate to records associated with specific events. I request 1) Any and all records (including, but not limited to, meeting minutes, electronic messages, notes, drafts, letters, calendar appointments, etc.) relating that certain Petition to EPA on behalf of the Ouachita Riverkeeper and Louisiana Environmental Action Network seeking an EPA objection under the Clean Water Act (CWA) to a draft National Pollutant Discharge Elimination System (NPDES) permit issued by the Arkansas Department of Environmental Quality (ADEQ) to Georgia-Pacific, LLC for its paper mill, chemical plant, and related facilities in Crossett, Arkansas, and alleging CWA violations filed on or about May 3, 2017. Please provide these records for the timeframe of June 20, 2017, the date of my previous request (Request EPA-R6-2017-008647), to the present. 2) Any and all records (including, but not limited to, meeting minutes, electronic messages, notes, drafts, letters, calendar appointments, etc.) relating to that certain meeting held on or about August 16, 2016 at the Crossett Public Library regarding "Crossett Conversation on Environmental Odors and Hydrogen Sulfide Emissions." 3) Any and all records (including, but not limited to, dates, agendas, meeting minutes, electronic messages, notes, drafts, letters, calendar appointments, etc.) relating to EPA Region VI Arkansas Environmental Justice Update conference calls, including a list of participants in such conference calls. EPA-R6-2017-011249	Mr. Reese Dunklin	The Associated Press	<p>On behalf of the Associated Press, I request copies of all documents, likely generated during a permit application or renewal process, or inspection or enforcement site visit, or a review of a state agency's monitoring or oversight activities, in which staff members of EPA's Region 6 office identified potential flooding risks at Arkema Inc.'s plant at 18000 Crosby Eastgate Road in Crosby, Texas (EPA facility identifier 100000124457). Responsive records may have been generated by staff in the Region 6 office as part of a permitting process, such as the RCRA hazardous waste program or NPDES stormwater program, or inspection or enforcement site visit, or a review of a state agency's monitoring or oversight activities. At least one document raising the prospects of flooding risks was generated in correspondence with staff of the Texas Commission on Environmental Quality. The timeframe for this requests would be responsive records from 1/1/2010 to present. I am seeking publicly available information only. I'd like to get responsive records emailed to me as PDFs at my email address. If records exceed 50 pages, I ask that they be made available to me on a rolling basis, meaning as they become available for release after any FOIA review process, rather than delaying release until the last document is ready. I also ask that you communicate with me by email or phone to expedite the FOIA process. I also request expedited processing, because this is a matter of public interest since the Crosby plant had chemical emissions, after flooding, catching fire and exploding in the last week, and it is important to understand what preparations for flooding may or may not have been identified as necessary there. Because of the furtherance of public knowledge, and because I work for a news gathering organization, I also request a fee waiver. Thank you.</p>	9/7/2017	
EPA-R5-2017-011267	Alexis Mapes		<p>My basement flooded and the cost to repair it is well beyond our means. Our plumber informed us that we are on a common sewer and heavy rain falls caused that common sewer to back up and flood our basement. Initially the city of Elgin told us they would cover the difference not covered by our home owners insurance because they were at fault due to common sewers. Their insurance company contacted us later stating that we were not on a common sewer and that they were refusing all claims filed in the city of Elgin. The sewer at this address has not been dug up or worked on in 34 years. They've done nothing to the surrounding areas, but not here. Our street floods and everything when it rains. Now we are just seeking information confirming that our sewer is a common sewer, so that we can use this to pursue reimbursement. As a result of this damage our home owners insurance has now dropped us. Thank you, very much time for your time and consideration.</p>	9/7/2017

I have attached a drawing depicting the overall property boundary. Information of importance that I would like to obtain will include, but is not limited to, existing environmental investigation reports, tanks, aboveground storage tanks, fuel oil tanks, groundwater monitoring wells, drinking water monitoring areas, past fires, environmental concerns, environmental liens, hazardous materials storage/spills, petroleum storage/spills, assessors' card information, building permits, current and/or historical building structures, storm water discharge permits (both NPDES and SPDES), historical maps, utility maps, and tax maps. If there are charges for copies, or if I need to obtain the information in person via an appointment, please contact me at (585) 729-6451 or Anthony.dinardo@obg.com prior to making copies so that I may understand what the costs are.</p>	9/7/2017	

EPA-HQ-2017-011252	Mr. Reese Dunklin	The Associated Press	<p>On behalf of the Associated Press, I request copies of all documents, likely generated during a permit application or renewal process, in which staff members of EPA's headquarters identified potential flooding risks at Arkema Inc.'s plant at 18000 Crosby Eastgate Road in Crosby, Texas (EPA facility identifier 100000124457). Responsive records may have been generated by staff in the headquarters office as part of a permitting process, such as the RCRA hazardous waste program or NPDES stormwater program. At least one document raising the prospects of flooding risks was generated in correspondence with staff of the Texas Commission on Environmental Quality. I'd like to get responsive records emailed to me as PDFs at rdunklin@ap.org. If records exceed 50 pages, I ask that they be made available to me on a rolling basis, meaning as they become available for release after any FOIA review process, rather than delaying release until the last document is ready. I also ask that you communicate with me by email or phone at 972 502 7571 to expedite the FOIA process. I also request expedited processing, because this is a matter of public interest since the Crosby plant had chemical emissions, after flooding, catching fire and exploding in the last week, and it is important to understand what preparations for flooding that EPA may not have identified as necessary there. Because of the furtherance of public knowledge, and because I work for a news gathering organization, I also request a fee waiver. Thank you.</p>	9/7/2017

			All correspondence between the Deputy Assistant Administrator Nancy Beck and emails from the domain name "@americanchemistry.com."; I hereby request such correspondence from the dates 1/20/17 to the present. This request covers all emails to and from Beck to and from addresses that include the domain name "@americanchemistry.com."; This request covers all attachments to the emails. 20, 2017. If it is your position that any portion of the requested records is exempt from disclosure, I request that you provide it with an index of those documents as required under Vaughn v. Rosen, 484 F.2d 820 (D.C. Cir. 1973), cert. denied, 415 U.S. 977 (1972). As you are aware, a Vaughn index must describe each document claimed as exempt with sufficient specificity to permit a reasoned judgment as to whether the material is actually exempt under FOIA. In Founding Church of Scientology v. Bell, 603 F.2d 945, 949 (D.C. Cir. 1979). Moreover, the Vaughn index must: describe each document or portion thereof withheld, and for each withholding it must discuss the consequences of supplying the sought-after information. In King v. U.S. Dep't of Justice, 830 F.2d 210, 223-24 (D.C. Cir. 1987) (emphasis added). Further, the withholding agency must supply a relatively detailed justification, specifically identifying the reasons why a particular exemption is relevant and correlating those claims with the particular part of a withheld document to which they apply. In Id. at 224 (citing Mead Data Central v. U.S. Dep't of the Air Force, 566 F.2d 242, 251 (D.C. Cir. 1977)).	9/7/2017

			Regarding the Western Processing Superfund Site at 7215 S 196th Street, Kent, WA, I am interested in obtaining information about the PRPs for the site. I am specifically interested in any information related to whether The Seattle Times Company was a PRP and, if so, the basis for their inclusion. I understand that approximately 325 PRPs were initially identified and sent notice letters in 1983, and that approximately 190 of them formed a group that contributed cleanup money through a trust fund. I also understand that a database was created by Techlaw/Intera to track PRPs and their involvement with the site. I would like to obtain copies of records such as lists of PRPs and the trust fund group members, PRP notice letters, and the PRP database, either as specifically relates to The Seattle Times Company, or as a data set that I can search through, if there is a file specifically for The Seattle Times Company within the Western Processing site files, I would like to review and/or obtain a copy of that. If it is known that The Seattle Times Company was never a PRP for this site, a complete list of PRPs showing that would be sufficient.	9/6/2017	Ex. 6, Ex. 4

EPA-HQ-2017-011140	Mr. Joshua Cooper		United States Environmental Protection Agency September 5, 2017 Office of the Secretary 1200 Pennsylvania Avenue, N.W. Washington, DC 20460 Submitted online Re: Public Records Request This is a request under the Freedom of Information Act for a copy of United States Environmental Protection Agency administrator Scott Pruitt's daily calendar from August 9, 2017 to the date of this request. I am also requesting copies of all travel reports, travel voucher, correspondence with the administrator's secondary account, records of travel authorizations, travel arrangements, per diems, reimbursements, sources of funds, miscellaneous expenses, travel responsibilities, modifications to tickets issued through the department's travel management center, and any other record of Pruitt's travel during the same period. I prefer to receive records in electronic format. Due to the time-sensitive nature of this request, I will hold the Environmental Protection Agency to a strict 20 business-day timeline for a response unless the agency notifies me in writing of extenuating circumstances that necessitate an extension by ten business-days. Please provide a written statement of the grounds, including specific provisions of FOIA, for denying, redacting, or withholding any records responsive to this request. Please alert me if you expect the cost of duplicating this request to exceed \$200. You may contact me with questions at (630) 687-5951 or jcooper24@gmail.com. My address for correspondence is PO Box 34614, Washington, DC 20043. Thank you, Joshua Cooper	9/5/2017	
EPA-R6-2017-011122	Mr. Theo Allen		This is based on the article https://apnews.com/27796dd13b9549b0ac76aded58a15122 The EPA's responded to this article, which can be accessed at: https://www.epa.gov/newsreleases/epa-response-aps-misleading-story I am not asking for business information as such information is not responsive to my request. Please also limit your search to information within the last two weeks, since Harvey was less than two weeks ago. And a privilege log would be requested, but should not include business information or trade secrets, as such information is not responsive. If any information requested includes geologic information on wells, please segregate such data and provide a privileged log. Such information is exempt from FOIA under exemption 9. Please provide the following information: (1) All Initial documentation from the 41 superfund sights in the Greater Houston Area that the EPA claimed to have inspected in the wake of Hurricane Harvey in its response to the AP story on September 3, 2017. (2) A list of the 41 superfund sights referred to in said article, distinguished by whether such facilities were flooded. (3) A list of superfund sights inspected by boat, otherwise inspected in person, or not inspected at all from August 26, 2017 to September 4, 2017 in the State of Texas. (4) If no such list exists described in clause (3), please provide any sublist that may exist of such inspections. (5) If any such list in clause (3) or clause (4) of this request includes the date and times of such inspections, please include such information. No fees will be paid. If a delay is needed because fulfilling such a request promptly would interfere in the recovery from Hurricane Harvey, please contact me via email so that an extension can be negotiated. Please respond via email.	9/5/2017

EPA-HQ-2017-010907	Geoff Rabinowitz	Valdosta State university	My name is Geoff Rabinowitz and I am hoping you will either be able to help me or point me in the proper direction. I am currently gearing up to begin my dissertation in Public Administration at Valdosta State University in southern Georgia, although I actually reside in Denver. I am exploring the possibility of researching the relationship between employee motivation (engagement) to desired program outcomes. I believe that the Federal employee survey may be able to provide me a longitudinal (multiple year) look into the employee motivation macro-data. My first question is, are the results of the survey (raw data minus personal data of course) available under FOIA? Second, if the data is available, how many years of surveys do you have? Third, can the data be provided on a divisional basis? My thought is, if the data is robust enough to be statistically viable, I would like to get as many years as possible for all EPA regulatory divisions (air, water, waste). Modification: raw data (non-compiled) without identifying information (employees names or numbers, SSN or the like) for the Federal Employee Viewpoint Survey (formally known as the Federal Human Capital Survey) for years 2004, 2006, 2008, 2010, 2011, 2012, 2013, 2014, 2015, and 2016. More specifically, I am only looking for the results (data) for the EPA Office of the Administrator, EPA Office of Air and Radiation, EPA Office of the Chief Financial Officer, EPA Office of Enforcement and Compliance Assurance, and the EPA Office of Water.	8/28/2017

EPA-HQ-2017-010899	James Snead		The United States is a party to the United Nations Framework Convention on Climate Change. The objective of this treaty is to achieve "stabilization of greenhouse gas concentrations in the atmosphere at a level that would prevent dangerous anthropogenic interference with the climate system." The objective implies that numeric values establishing the maximum acceptable greenhouse gas concentrations are known. Regarding carbon dioxide, please provide any EPA documents, emails, or other records defining what atmospheric carbon dioxide concentration prevents interference with the climate system. Understanding what maximum CO2 concentration is deemed safe and comparing this to the current measured concentration enables the public to assess what needs to be done in terms of U.S. public policy and legislation.	8/28/2017

I am requesting these records as a PhD student and researcher at Cornell University based in Ithaca, New York. This information will solely utilized for academic purposes. I request a waiver of fees because my interest in the records is not primarily commercial, and disclosure of the information will contribute significantly to public understanding of the operations or activities of the government, given the high exposure of fracking as an environmental and social issue largely discussed in the public. The public deserves to know and measure the sentiment of fracking as an issue and our research will better shed lights on this matter. I will expect a response within 20 working days as provided by law. If my request is denied in whole or in part, I expect a detailed justification for withholding the records. I also request any segregable portions that are not exempt to be disclosed.	8/28/2017

EPA-HQ-2017-010851	Jonathan DeMella		January 17, 2018: This Request has been pending since August 24, 2017, with no substantive movement. Please provide an update. August 24, 2017: On July 25, 2017, the GAO issued a decision denying a bid protest of SCST in connection with EPA Solicitation No. SOL-HQ-14-00022. By this request, SCST seeks certain documents that EPA withheld during the course of the protest. Although not previously released to SCST, there is a reasonable likelihood that the documents requested below were gathered by EPA"s counsels of record in the course of defending the protest Sara E. McGraw, Esq. and Kenneth Pakula, Esq. The protest was docketed as B-414601. B-414601.2. SCST hereby requests: 1. All documents relating to EPA"s evaluation of SCST"s proposal in response to Solicitation SOL-HQ-14-00022. This includes: a. any and all documents (including preliminary evaluation documents and written communications, including emails, among evaluation members) in which EPA evaluators considered SCST"s acquisition of Sullivan International Group, Inc., as reflected in the attached 1) Novation Agreement, and 2) Asset Purchase Agreement in which the EPA and U.S. Government, as represented by the Department of Justice, assured SCST of all "s privileges and assets, " and all liabilities, to the beginning of the contract. b. All past performance questionnaires considered by EPA in its evaluation of SCST"s proposal 2. All documents reflecting EPA"s consideration of the aforementioned Novation Agreement in connection with the evaluation of any other offeror under Solicitation SOL-HQ-14-00022. EPA-R3-2017-010805	James M Pierson	Pierson Legal Services	The firm represents Allen Atkinson whose property has been damaged by water from the storm drain system in the Town of Poca. Unfortunately the Town of Poca has denied ownership or control of its own storm water system. We have recently added the Putnam PSD to our litigation but in as much as the system discharges into a navigable waterway, it appears that there should be reports filed relating to those discharges. The Town of Poca denies that it has records regarding the location of the storm drain system and so it is possible that this is a combined sanitary sewer and storm sewer system. Please allow this communication to serve as our request pursuant to the Freedom of Information Act that you provide this office with copies of any report filed by any person or entity relating to storm water discharge from waters originating from the area now encompassing the Town of Poca, WV into the Kanawha River or its tributaries. Also please provide a copy of any permit, authorization of similar document regardless of date which authorized the Town of Poca or other entity to discharge storm water runoff from the area now encompassing the Town of Poca into the Kanawha River or its tributaries.	8/23/2017

EPA-R10-2017-010720 EPA-HQ-2017-010705	Paul Koberstein Mr. Robert J Sloan	Cascadia Times Lonza Inc	Dear FOIA Officer: Pursuant to the federal Freedom of Information Act, 5 U.S.C. §552, I request access to and copies of All records submitted by Oil Re-Refining Co. and American Petroleum Environmental Services, both of Portland, Oregon, in response to requests for information filed on April 5, 8, and May 25, 2016, by the EPA under Section 114 of the Clean Air Act. I would like to receive the information in a thumb drive. I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$50. However, please notify me prior to your incurring any expenses in excess of that amount. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the currently pending renewal of air pollution permits issued to APES and ORRICO that is of current interest to the public because both plants have been named in hundreds if not thousands of odor complaints submitted by neighbors of their North Portland facilities since 2000. This information is being sought on behalf of Cascadia Times for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. This information will inform the public about air pollution emitted by these facilities and help citizens formulate comments on currently pending air pollution permits. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. I would appreciate your communicating with me by email or telephone, rather than by mail. EPA-HQ-2017-010741	Kelly Moran		Iâ€™m writing on behalf of the City of Sacramento to request your assistance in obtaining emailed electronic copies of two EPA scientific documents that were probably prepared to support EPAâ€™s decision on the rice use of this pesticide. The two documents are: (1) the rice pesticides drinking water estimated environmental concentration modeling (probably in a memo prepared by EFED) and (2) the human health risk assessment (probably prepared by HED) estimate the human health risk (including drinking water consumption) for this pesticide. The City of Sacramento (my client for whom I'm making this request) has needs for these documents that are timely (i.e., need within 1-2 weeks at most) due to the legally mandated schedule associated with the stateâ€™s review of the registration application for the product which limits the time during which they can provide scientific input to the state. My client has logistical limitations on their ability to pay direct costs such as any EPA costs associated with a FOIA, so I must request that EPA not incur any billable costs associated with this request. Please contact me if this is a problem. I have been in contact with Earl Ingram, Chief, Public Information & Records Information Technology & Resources Management Division regarding this request. He tells me that he already has some specific information on where to search for the responsive records and that he does not think this request will meet a billable amount, based on the City of Sacramentoâ€™s Fee Category and the limited number of records involved. Thank you very much!	8/22/2017

EPA-HQ-2017-010379	Dan Elliott	Associated Press	<p>Pursuant to the federal Freedom of Information Act, 5 U.S.C. 552, I request the following information: 1. Copies of all claims submitted to the EPA under the Federal Tort Claims Act in connection with the Aug. 5, 2015, Gold King Mine release. Under a previous FOIA request (EPA-HQ-2017-002966), I received redacted copies of approximately 75 claims submitted to the EPA under the Tort Claims Act, but in a news released dated Aug. 4, 2017, the EPA stated "There are currently 144 total claims pending ...". This statement by EPA indicates additional claims were submitted after my earlier request was fulfilled, or some claims were withheld from me when I made that request. With this letter I am requesting copies of all 144 claims, including any copies I received under EPA-HQ-2017-002966. 2. If it is not covered by the request above, I am also requesting a copy of an administrative claim for \$1.9 billion filed by the state of Utah. The EPA news release of Aug. 4, 2017, described Utah's claim this way: "In February, the State of Utah filed an administrative claim seeking \$1.9 billion." I would like to receive the information in electronic format. I am making this request as a reporter with The Associated Press and this request is made as part of newsgathering and not for commercial use. As a representative of the news media I am required to pay only for the direct cost of duplication after the first 100 pages. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. I will also expect you to release all segregable portions of otherwise exempt material. I reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and the information is of timely value, I would appreciate your communicating with me by telephone at 303-825-0123 or e-mail at delliot@ap.org, rather than by mail, if you have que</p>	8/9/2017

EPA-HQ-2017-010328	James Duffy	Clean Air Task Force	<p>On January 11, 2017 the United States District Court for the Northern District of West Virginia ordered EPA to submit a A§ 321(a) evaluation of the coal industry and other entities affected by EPA rules and regulations no later than July 1, 2017. Two days before the evaluation was due the U.S. Court of Appeals for the Fourth Circuit vacated the District Court's order. Given that the Court of Appeals decision was released on June 29, 2017, merely two days before the section 321 report was due to the District Court, CATF believes that the section 321 report was in fact prepared by the Agency but never submitted to the Court or otherwise made public. CATF therefore requests: 1. Any and all reports, memoranda, or evaluations prepared in response to the District Court's Jan. 11, 2017 Order (Attach A); and 2. The underlying data supporting any report or evaluation.</p>	8/8/2017	Ex. 5

EPA-HQ-2017-010245	Mr. Hudson Munoz		<p>This is a request for records under the Freedom of Information Act. I am writing to request copies of any and all OGE conflict of interest waivers that may have been granted to the following individuals: Tate Bennett, Troy Lyons, Liz Bowman, and Christian Palich. According to the Office of Government Ethics, 18 U.S.C. § 208 requires that an executive branch employee be disqualified (&quot;recused&quot;) from a &quot;particular matter&quot; if the matter would have a direct and predictable effect on the employee's own financial interests or on certain financial interests that are &quot;imputed&quot; to the employee by the statute, unless the employee first obtains an individual waiver or a regulatory exemption applies. I am requesting copies of any and all recusal letters purported to show that the following individuals recused themselves from a &quot;particular matter&quot; as described under statute 18 U.S.C. § 208: Tate Bennett, Troy Lyons, Liz Bowman, and Christian Palich. I am also requesting copies of the Environmental Protection Agency's recusal policy. I am requesting copies of the full calendars, starting from January 20, 2017 until the date of this request, for the following individuals: Tate Bennett, Troy Lyons, Liz Bowman, and Christian Palich. As you know, public records law provides that if portions of a document are exempt from release, the remainder must be segregated and disclosed. While I expect that you will send me all non-exempt portions of the records I have requested, I respectfully reserve the right to challenge your decision to withhold any materials. Due to the time-sensitive nature of this request, I will hold the Environmental Protection Agency to a strict 20-day deadline for an initial response and expect the agency to provide written notice of its intention to take any extension to respond.</p>	8/7/2017

EPA-R6-2017-010148	Mr. Scott Deatherage		I would like to obtain from EPA Region 6 a report or reports that provide the data reflecting soil and groundwater concentrations currently at the Dallas Naval Air Station in the Dallas Area. The address of Dallas Naval Air Station is Dallas NAS, Grand Prairie, TX 75051, USA. This may also be an address: 501 ARNOLD AVE, NAVAL AIR STATION #B, TX 75127. I am interested in current concentrations of soil and groundwater. I would also like data on any soil vapor, sublab soil vapor, indoor vapor concentrations or other vapor testing or modeling. I am looking for reports from 2012-2017. I don't really know the dates as I don't know what reports are available. If there is one report that shows data from soil, groundwater, and vapor testing, then I just need the one report. I understand the main contaminant is trichloroethylene. So that one in particular I would be interested in, but also other VOCs, metals, and SVOCs. I'm looking only public information is necessary as the reports showing the environmental conditions and chemical concentrations are public. Mr. Richard Mayer with EPA Region 6 may be able to clarify regarding the records requested for this FOIA request.	8/3/2017

Please consider this request separate from all other requests made by my news organization. I would prefer to receive copies of requested documents in electronic format via email. Given that our organization is a non-profit, 501(c)(3) with journalism as a core mission and that its mission is clearly within the public interest, we request your agency waive all fees associated with this request. Records produced under this request will be made available to the public. If fees cannot be waived, please provide us an estimate of the cost to produce the requested documents in writing before fulfilling our request. We intend to use our request to measure responsiveness of government agencies to constituents. We believe it's in the public interest to expedite this request. If you feel any part of our request falls under an exemption in the law, please notify us of the exemption. Thank you, Andrew	8/3/2017

EPA-HQ-2017-010157	Shadman Karim	ERIS	Hello There, I am looking to acquire the most recently up to date RCRA info data files that is available for public through EPA. We have been using the data files from the ftp site for some time - ftp://ftp.epa.gov/rcrainfodata/rcra_flatfiles/ But the most recent updates, the files have significant errors in the fixed lengths comparing to what is mentioned in the V6 RCRA Info Flat files documentation. Without the proper explanation of the fixed lengths, it is not possible to use the flat files available in the ftp site. (For example, "REPORT_UNIV.txt" file has clarification till fixed length 1052 but the actual file has 1219 fixed length) I was wondering if someone from your division could provide me the files in an alternative format (e.g MS Access) where the fixed length issue can be easily solved. Please give me call at 416-510-5204 ext 43627 if you have any questions. Thanks, Shadman Karim	8/3/2017

EPA-R9-2017-010182	Douglas Mackenzie		Dear EPA: I request copies of records under the Freedom of Information Act (5 U.S.C. 552) containing data that refers to and/or describes the dispersal of materials in the atmosphere visible over Monterey County, California on August 3, 2017, including but not limited to, the composition(s) of the materials dispersed and the quantities of each material dispersed. On information and observation, I have probable cause to suspect that the materials dispersed include at least Welsbach and Welsbach-like materials (such as the oxides of metals), coal ash, and materials characterized by frequency-dependent emissivity. In my considered opinion, a search of your electronic files using the names of these materials as search terms will likely result in records responsive to my request. On further information and observation, I have probable cause to suspect that at least some of the materials dispersed in the atmosphere are dispersed from aircraft flying to and from Fort Hunter Liggett in southern Monterey County. The attached photo was taken this morning at 7:38 a.m. PDT. In order to help you determine my status for the purpose of assessing fees, you should know that I am an individual acting on my own behalf and on behalf of Spirit and Life on Earth and I have no intention of using the information commercially. I request a waiver of fees for this request because disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to the public understanding of the operations or activities of EPA and is not primarily in my commercial interest. I have included a telephone number at which I can be reached if necessary to discuss any aspect of my request. Sincerely, /Douglas Mackenzie/ Douglas Mackenzie 32880 Sycamore Rd. EPA-2017-009972	Ms. Jamie S Hopkins	The Center for Public Integrity	Please provide us copies of the records identified and described below: (1)All formal policies directives from EPA headquarters to any Region related to enforcement, from January 1, 2014 to the date you process this request. (HQ to respond) (2)All formal policies directives developed within any Region related to enforcement, from January 1, 2014 to the date you process this request. (Regions to respond) The term “formal policy directives“ includes emails but includes signed memoranda articulating enforcement policy. Draft and other documents related to the development of policy directives would not be responsive; nor would documents that merely quote or reference a directive. Only the final version of any given directive would be responsive. Agreements between EPA and states that merely implement directives “ but do not establish the directives themselves “ may not be responsive. Additionally, documents shared with states or developed in collaboration with states may be public already, in which case EPA need not provide them in response to this request. PPAs will generally not be responsive.	7/31/2017

EPA-HQ-2017-009806	Ivy Zhang		<p>Dear Sir or Madam, Good day for you. This is lvy from REACH24H Consulting Group China. Recently we plan to apply for a pesticide registration to EPA. Our product is Diethyl toluamide (DEET, PC code 80301), which is a manufacturing use product with DEET purity 99%. We hope to use the cite-all data citation to fulfill the data requirements. We found this product has been registered long ago before 1990. Could you please help us to have a check if we choose to use cite-all data citation, can we use all the available data for this product freely without asking the data owner? If possible, can you provide us with a data list for all the available data for this product? Thank you very much and looking forward for your reply. Kind regards, Ivy</p>	7/26/2017

What is radon, radium, and carbon dioxide numbers within 10 miles of the Arroyo Grande Oil Field, within the last 5 years? 6. How often do you test the air levels at the Arroyo Grande Oil Field and how do you test the air quality? 7. Is there regulations to governing the handling and disposal of TENR contaminated material and what is the safety problems, storage and transport of radioactive materials and waste products at the Arroyo Grande Oil Field? 8. Does the Arroyo Grande Oil Field give their old pipes to scrap yards and metal reclamation facilities? 9. As you know radium -226 has a half life of 1620 years, so these contaminated sites will be a concern for centuries. Does that statement apply to Arroyo Grande Oil Field? 10. Many of these work sites that take the pipes are within city limits and could be easily be used for residents or commercial purposes, resulting in radon concentrations causing serious health threats. Is there a protocol you are aware of that can prevent these pipes from getting in the hands of public and private business? 11. People cutting oil field pipes are being exposed to alpha - emitting radio, is there a test device available onsite of the person cutting the pipes to alert that person/s to the level in the air? I understand these is a very difficult questions to ask about liabilities for workers, but would like to know if any precautions are available for workers in case of fracking accidents, environmental contamination, workplace exposure to radioactive mater</p>	7/24/2017

EPA-HQ-2017-009436	Mr. David Henson	F.B.I. FD5 C.I.!!!!!!	<p>I'm working on a masters thesis that tries to quantify the health benefits of the Enhanced Surface Water Treatment Rule with respect to decreased incidence of gastrointestinal illnesses in the United States. Because the rule was phased in (first applying to systems serving greater than 10,000 people, then later to systems serving less than 10,000 people), I have an opportunity to show not just correlation, but causation, by looking at differences in counties that are around that threshold. SDWIS data would be used to tell which of the two groups counties fall into. The EPA website only has that information for present day. However, I am concerned that system characteristics may have changed between 2000 and today. In order to reduce possible error in my calculation, I am requesting a list of SDWIS facilities with source water type, population served, and counties served FROM THE YEAR 2000 in the form of a comma-delineated text file. Please let me know if you need any additional information. Thank you, Carolyn Hayek</p>	7/17/2017

EPA-HQ-2017-009350	Mr. Eric Lipton	The New York Times	I am requesting copies of a federal employee's correspondence under the Freedom of Information Act. I would like all government-related correspondence of Administrator Scott Pruitt that has not been conducted through his official administrator email account. I would like all correspondence, starting from January 20, 2017 up to this date. Government-related correspondence should include, but not be limited to, any message that contains the following terms: reg, regulation, environment, energy, EPA, administrator, carbon, climate, policy, administration, government, coal, solar, nuclear, wind, oil, fossil fuels, methane, fracking, pipeline, project, agenda, United States, US, Paris, G20, G7, power, staff, bureaucracy, or Trump. Please call me to if you have any questions about the scope of what should be included in this query. I would like any messages sent to or received by Administrator Pruitt internally with other EPA staff as well as with outside parties. Modes of communication that are not the Administrator's official EPA email account should include, but not be limited to: other EPA email accounts, email accounts not managed by the US government, text messages, chat messages (including iMessage, Gchat, Slack, Twitter, and any other messaging software), letters or faxes. Please send the discovered correspondence on a rolling basis, and do not wait until all correspondence is compiled to fill the request. If any part of this request is denied, please state under which FOIA exemption you are claiming to deny it. Please contact me with any questions by phone. Please respond to my request electronically, via email. Thank you.	7/13/2017

EPA-R6-2017-009302	Ms. Bentley Harris	Reed and Scardino LLP	We would like information concerning waste volumes for the entire span of operation, which would date back to 1944. If possible, we would like the information presented in summary form. Further, we are fine with rolling responses and do not request a log of confidential information at this time. Request for information from the U.S. EPA under the Freedom of Information Act pertaining to the U.S. Oil Recovery Superfund Site in Pasadena, Texas ("Site"). The information requested is as follows: 1) information reflecting the volumes of waste that were received at the Site for treatment or disposal during the duration of its operation. Summary/chart/spreadsheet information reflecting the total waste volume over the period of years for which such information is available would be acceptable. If the U.S. EPA has such information in summary fashion on a load-by-load basis, reflecting the identity of each waste generator and/or transporter for each load, then that information would be helpful. I understand that a PRP Group has been formed that is working subject to U.S. EPA oversight and whose information of this nature should be available to the U.S. EPA. 2) Information reflecting communications and other information to date between the a) PRP Group and/or its consultant and b) U.S. EPA regarding the pending remedial investigation and feasibility study for this Site.	7/11/2017

EPA-R9-2017-009083	Kelly Knight	Targus Environmental	<p>Good afternoon, Iâ€™m working on a Phase I ESA for a property located at 2040 Williams Street (also known as 2010 and 2020 Williams Street), in San Leandro California. The CERCLIS ID for this facility is CANDO0906074; the Site number is 09LW. I have been going through an EPA Pollution Report (attached), dated August 2, 2004, for the property. The report described: (1) a June 14, 2004 meeting attended by the San Leandro Fire Department, the Alameda County Fire Department, the Alameda County Sheriff, and the ATF; (2) a 14-minute video of the 360chemical roomâ€™s generated by the FBI or one of the previously-mentioned entities; and (3) another April 25, 2004 videotape (generated by the EPA) of stored chemicals. Iâ€™m wondering if you might be able to direct me to the appropriate place to procure this documentation. Any direction you can give me would be greatly appreciated. Thank you very much. Best, Kelly Knight</p>	7/5/2017
EPA-HQ-2017-009087	Mr. Joshua Cooper		<p>United States Environmental Protection Agency July 5, 2017 Office of the Secretary 1200 Pennsylvania Avenue, N.W. Washington, DC 20460 Submitted online Re: Public Records Request This is a request under the Freedom of Information Act for a copy of United States Environmental Protection Agency administrator Scott Pruittâ€™s daily calendar from June 2, 2017 to the date of this request. I am also requesting copies of all travel reports, travel vouchers, correspondence with the administratorâ€™s secondary account, records of travel authorizations, travel arrangements, per diems, reimbursements, sources of funds, miscellaneous expenses, travel responsibilities, modifications to tickets issued through the departmentâ€™s travel management center, and any other record of Pruittâ€™s travel during the same period. I prefer to receive records in electronic format. Due to the time-sensitive nature of this request, I will hold the Environmental Protection Agency to a strict 20 business-day timeline for a response unless the agency notifies me in writing of extenuating circumstances that necessitate an extension by ten business-days. Please provide a written statement of the grounds, including specific provisions of FOIA, for denying, redacting, or withholding any records responsive to this request. Please alert me if you expect the cost of duplicating this request to exceed \$200. You may contact me with questions at (630) 687-5951 or jfcooper24@gmail.com. EPA-HQ-2017-009059	Tony Barboza	Los Angeles Times	Pursuant to the federal Freedom of Information Act, 5 U.S.C. 552, I request a nationwide list of all all schools and any other organizations that participate in the Air Quality Flag Program. We know EPA has an electronic database of this because its AirNow website features an interactive map identifying and pinpointing the location of each participating school or organization (Here: https://gispub.epa.gov/OAR_OAQPS/FlagProgram/). Whether it's the database used to create that map or spreadsheet or other electronic record containing similar information, we'd like a copy of the most up-to-date and comprehensive list of schools and organizations that participate. This should include the name of each participating organization and all other data fields and geographical information, including school name, city, state, address, Zip code and geospatial data. I would like to receive the information in electronic format, such as a database or spreadsheet. I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$25. However, please notify me prior to your incurring any expenses in excess of that amount. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. This information is being sought on behalf of Los Angeles Times for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities, including participation in a program intended to protect the health of children. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material.	7/3/2017

			Public Water Supply/Drinking Water I am requesting records on when drinking water in Michigan towns/townships/cities failed to meet the Federal Safe Drinking Water Act (SDWA) regulatory standards since the year 2000. I am looking for the year of the incident, the name of the town/township/city, and a basic description of what the violation was. This request is for my senior thesis research in which I am trying to understand the determining factors impacting a local government's response to a public health crisis, specifically in terms of water quality. The state of Michigan is a case study for my research. I believe this research would have great applicability and use to the public to understand how we can better improve responses on the part of local government's to public health crises and identity issues within our current systems that can be improved.	7/3/2017

EPA-R7-2017-009015	Mr. Russ Gulledege		We request the following information for work performed by Wastren under contract number EP571508 (Madison County Mines). 1. Square Footage excavated for each property for the entire contract. 2. The depth of material excavated from each property for the entire contract. Typically this information is available in a spread sheet format. If a spreadsheet is available that includes the requested information, that will suffice for this request. If a spreadsheet is not available, any documents such as emails, billings, reports, maps or logs that discuss or describe square footage of areas excavated and depth of excavation is requested. The information we're looking for covers a two year span (2015 & 2016). However, the contract ended in 2017, so it's possible that the final report or final spreadsheet may be dated in 2017.	6/30/2017

EPA-HQ-2017-008966	Mr. Quinn A Maetzold		I am seeking information about the previous regional administrators of regions 1,2,3,4,5,6,7,8, and 10 from January 1993 to the present administrators. I have already been seeking information about the past administrators from Region 9 so that region is not necessary. Specifically, I am looking for the names of all the people who have acted as regional administrators starting from the beginning of President Clinton's administration (January 1993) until the current, acting administrators for each region. As well as the names, I am also looking for the start and end dates for each person's term as regional administrator. The purpose of this request is that I am working on an undergraduate research project in the field of environmental economics at the University of Kansas. My intention is researching how decisions of regional and federal administrators, or political parties, impact the way environmental regulations are enforced. The expectations about enforcement and inspections influence the way firms comply with regulations and how they produce waste. Therefore, knowing who was in charge of the different regions during certain time periods is pertinent to understanding the timeline of different laws that were enacted, specifically the Clean Water Act; how they were enforced; and how this affects levels of environmental waste.	6/30/2017

EPA-HQ-2017-008832	Mr. Ian James	The Desert Sun/USA TODAY Network	Hello, This is a request under the Freedom of Information Act. I understand that the EPA collects annual reports from all companies that export hazardous waste under the Resource Conservation and Recovery Act (RCRA). I request that copies of the following documents be provided to me: _All reports submitted by companies regarding imports and exports of hazardous waste, to or from Mexico, for the years 2010, 2011, 2012, 2013, 2014, 2015 and 2016. _If EPA keeps any datasets listing imports and exports of hazardous waste, please also provide the complete data for all countries (not just Mexico). I would ask that you provide these documents in their native electronic form. I would also ask that any compiled data be provided in a spreadsheet or similar format if it is available. I am a journalist employed full-time by The Desert Sun and the USA TODAY Network. This request is made as part of news gathering and not for a commercial use. I am requesting a waiver of all fees under 5 U.S.C. Section 552(a)(4)(A)(ii). The information I seek is in the public interest because it will contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. If any portions of these documents are determined to be except under the FOIA from mandatory disclosure, I would request that other portions of the documents be released. If you have any questions regarding this request, please contact me by phone at 760-778-4693 or by email at ian.james@desertsun.com. Please contact me upon receipt of the letter and advise me when you will be able to respond. I look forward to receiving your response within the 20-day statutory time period, and sooner if possible. Thank you. Ian James	6/27/2017

EPA-HQ-2017-008796	Mr. John T Fox		Listed on this website are a series of settlement agreements that arise from the Notice of Violation of Renewable Fuel Standards File Number AED/MSEB #8061 (https://www.epa.gov/enforcement/aed-biofuels-environmental-settlement-agreements-which-invalidated-33-573-595-RINs-produced-by-a-biofuel). All 47 settlement agreements refer to a Schedule A; however, none is provided. 1) Please provide all Schedule A's for the 47 settlement agreements. 2) Please specify the date these 47 settlement agreements were made public and/or posted on the website. 3) Were the parties to the settlement agreements required to provide replacement RINs for the invalidated RINs? If not, did the fines paid settle any requirement from EPA to replace the RINs. If there were replacement RINs, please provide the RINs that were provided by each of the 47 parties as replacement for the invalidated RINs in each of the settlement agreements. The total number of RINs included in the 47 settlement agreements is 30,296,864 leaving a difference of 3,276,731 based on the NOV issues in December 2013. 1) What company or companies are party to the 3,276,731 RINs? 2) Is EPA currently investigating or in negotiations with said companies on the fines and penalties associated with holding the RINs? 3) What is the current status of these RINs?	6/26/2017

EPA-R2-2017-008781	Emily Osbahr		My neighbors removed all of the trees in their yard in 2014 including a tree that was on our property. Since then they have continued to remove bushes that cross the property line. I am looking to find out if they ever got a permit for removing their trees because there is an ordinance in my town that says they should not be allowed to remove more than 3 trees without a permit. We tried to speak to them about what they are doing to our property and it did not work out so we unfortunately have to file a claim against them. They are definitely legally responsible for our tree, but I need to know if they even had legal permission to go ahead with removing the trees on their own land in the first place. I attached a photo of what they did just this morning. I'm fairly positive these trees are on the property boundary.	6/23/2017

EPA-HQ-2017-008697	Mr. Eric W Quintanilla	ERS	Hello, Good afternoon. I wanted to request the latest version of the Risk Management Plans. This database contains facilities that have developed risk management plans as reported by the Environmental Protection Agency. The System for Risk Management Plans (SRMP) is a suite of electronic systems containing information relating to risk management plans submitted by facilities in accordance with the Clean Air Act, Section 112(r). Affected facilities are to develop risk management programs which will prevent and minimize consequences of accidental releases of certain hazardous chemicals that could harm public health and the environment. We last received this database in February 2016 (EPA-HQ-2016-002827). Please let me know if you need further clarification. Thank you for your assistance.	6/21/2017	Ex. 6, Ex. 5

EPA-R4-2017-008633	Mr. Daniel O Reddy	Naval Reactors Facility	Hello, My name is Daniel Reddy. I am a student conducting a summer research project at Naval Reactors Facility on PCB extraction. I came across an article that referenced an experimental study conducted by Stewart at ORNL in 1988 validating EPA Method 3541 (SOXTEC extraction) in comparison to EPA Method 3540 (Soxhlet extraction). These are the references for the documents that are seemingly impossible to find: Stewart, J. EPA Verification Experiment for Validation of the SOXTEC PCB Extraction Procedure. ORNL, Oak Ridge, TN 37831-6138. October 1989. I have been in touch with the ORNL librarian, who has also contacted an EPA librarian, but neither has been able to locate these documents. My study is attempting to reconcile EPA Methods 3540 and 3541 as part of my summer internship at NRF. Having copies of these documents is very important to the progress of my study because I would like to model my study based on the Oak Ridge study. Since they were sent to EPA for verification, I hope that these documents can be obtained. Thank you, Daniel Reddy	6/20/2017

EPA-2017-008639	Charles Pfister		This is a request under the Freedom of Information Act. I hereby request copies of the following records: We are requesting records regarding an EPA consent agreement and final order in 1988 with DeaC™Longhi USA, the manufacturer of a consumer oil-filled space heater. See the attached article in the EPA Journal, Vol. 14, No. 4, May 1988, p. 36. The Agency determined that some of approximately 500,000 heaters distributed in the US by DeaC™Longhi contained oil contaminated by PCBs. We are also attaching two newspaper articles about the situation, indicating that possibly the original discovery of PCBs was made by Environment Canada. I am specifically asking for copies of the following documents: 1) Technical documents regarding the extent and nature of the PCB contamination and any risk assessment. 2) A copy of the Consent Decree and Final Order. 3) All correspondence with DeaC™Longhi about the matter. 4) All documents regarding the recall of the heaters in question if not included in #3. I understand that the documents are probably archived and effort will be needed to locate the documents. Note that we briefly spoke with Jenny McLeod in OLEM/ORCR, who indicated that there may be documents in more than one office, including her office. If the documents are voluminous, we might consider viewing the documents before requesting copies. Please let us know about this situation if appropriate. I do have a commercial interest in this request, as I represent a consumer who has filed a legal claim against the manufacturer of the oil filled heater due to a fatal fire, and this consumer may have been exposed to PCBs when oil leaked out of the heater. However, there is also a public interest in this request. See the Expedited Processing Request. I am willing to pay fees for this request up to \$1,000. If you estimate that the fees will exceed this limit, please inform me before processing my request. If you have any questions regarding this request please contact me.	6/20/2017

However, the archives only go back to 2013. I was told by Renne Morris who is the Data Analysis Team Lead (Infrastructure Branch) of the Drinking Water Protection Division from the Office of Ground Water and Drinking Water to submit a FOIA for my request: I wanted to see if I could obtain the SDWIS Federal Reports for 2005. In particular, I am looking for the individual site population served count for the large and very large PWS's from 2005. For example, AL0000029 (Daphne) the population in 2016 was 25,968 and I am looking for the 2005 population served for this PWS; as well as all the other large and very large PWS's from 2005. Thank you!	6/20/2017
EPA-R4-2017-008610	Mr. Justin B Jones		trying to find out who has been calling the N.C. eap on me for burning yard debris in my yard in robenson county. about a month ago I started getting the robenson county epa man coming to my house saying someone was calling the N.C.epa on me for burning yard debris in my yard which happens to be in the county not the city. which in the county you can burn yard debris. the man from robenson county epa said he didn't see a problem with what I was doing because the county allows that. well next thing I know I start having the robenson county epa man at my house every day for a week straight because someone was calling in to the N.C epa saying I was burning shingles and bringing yard debris from jobsites and burning it in my yard. I happen to work for a tree service which has its own dump spot for debris so none was coming to my house but whoever was calling wasn't calling the robenson county eps they where calling the N.C. epa instead and said they had watched us bring the debris in from other jobsite and had dates and times. well we explained to the robenson county epa that we hadn't and he tried telling the N.C epa man that but he called him a lier and said he knew for a fact that we were bring it in from other jobsites but yet the N.C. epa said he had never been by my house he was only going by what he was been told by the person telling it. the problem got so bad that I put a pile of yard debris in a pile left to go to work and it got set on fire and my water was cut off at the road so I couldn't be put out at that point the N.C.C epa said if I didn't get it straightened out he was going to have air quality fine me \$15,000. I'm trying to find out who did it so I can take them to court for harassment, stalking , and tampering with my water.	6/20/2017

EPA-R9-2017-008605	Laura Cash		I am interested in purchasing a property that used to be a dry cleaners. It hasn't been in business for several years now. I talked to the owner and he said that years ago the EPA did some testing and one of the samples came back .001 higher then it should have. Shortly after that he closed down for other reasons. I would like to know where this property stands as far as the EPA is concerned. I don't want to purchase it discover it needs expensive testing done. I have searched the state records and they don't have anything on this property. The information I have on this property is listed below. EPA-HQ-2017-008566	Sylvia Carignan	Bloomberg BNA	This is a request under the Federal Freedom of Information Act (FOIA), the First Amendment to the United States Constitution, the common law of the United States, the Privacy Act (5 U.S.C.) section 552a, and any statute providing for public access to government information: I request copies of all records created by Administrator Scott Pruitt”s Superfund task force regarding suggested changes to the Superfund and brownfields programs, including meeting minutes, correspondence between task force members and draft recommendations. I ask that these records be provided to me in electronic form to scarignan@bna.com or via compact disc to the address provided below. If there is a large number of files, I ask that I be permitted to inspect the documents. Please include any phone calls, call logs, call sheets, Skype calls or videos, emails, letters, hand-written notes, day calendars, memorandums, meeting agenda sheets, text messages, voice and video recordings and other documented forms of communication regarding this issue. If possible, I would prefer to receive the largest number of records or documents in electronic form. I am seeking this information, which is of current interest to the public, because of Administrator Pruitt”s recent focus on prioritizing the Superfund program. This request is made as part of the news gathering process, and not for commercial use. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I would appreciate your communicating with me by email or telephone at 703-341-3708, rather than by mail, if you have questions regarding this request. I look forward to your reply within 20 business days, as the statute requires. Thank you for your assistance. EPA-R9-2017-008588	Mrs. Tawana L Morgan	Attorney Dawson law Firm	FOIA request Granville Homes of Fresno C.A. and specifically the Parks at Fig Garden Apartment recovery efforts. I am requesting additional information in-order to pursue USDöJ-Antrust case against individuals company executives whom are not complying with Environmental Protection Agency laws and regulations though there have been multiply complaints filed on an local level the issues goes beyond the State of California borders. It includes multiply filed contracts with fraudulently. The merit of my case low income apartments units at Parks at Fig Gardens housing multi-families, elderly and children including an day care on the property. Apartment units that housed at one point over one thousand people. The owners whom are subsidized by the City of Fresno, the State of California including the Federal government through the United States Department of Housing and Urban Development (HUD) have left the area in complete distress. Including currently allowing such actions as violating local fire safety codes excessive gas leaks, electrical issues, outlets, ventilation mold and mildew excessive. The issues effect the remaining tenants whoms lives are currently in jeopardy and abandonment of the property including the surrounding community due to there irresponsible behavior it also effects the entire country. Pacific Gas and Electric Company installed new meters in the area stating to elected official's whom signed the contract in Sacramento C.A. that the product would benefit the public by cost savings. When I contacted PG and E Attorney of record regarding The Parks at Fig Gardens relations they moved ahead on there company project unfortunately the damage had already been made the amount of gas released into the area was tremendous resulting in medical calls in the area directly related to the release of the poisonous gas at those levels and are as matter record it is well established medically known to cause birth defects and cardiovascular issues.	6/19/2017

EPA-HQ-2017-008408	Judah Phillips		I would like to download a copy of the entire SDWIS data warehouse. All tables and data. I am not looking for instructions for on how to use the EPA site or the RESTful API. I don't want to query endless times to get the data. I am simply looking for the ability to access a copy of the data set. I don't want API instructions. I am asking for a copy of the entire SDWIS be put on a file share and be made available via SFTP (or other file transfer protocol) an exact copy of SDWIS of the SDWIS (sometimes also called SDWIS FED or SDWISFED) database that EPA maintains regarding public drinking water systems. Again, I am asking for a full data set download of SDWIS- a full data export of all the data in all the tables and all fields in SDWIS - unless there is a specific exemption in the law for the information in that field. I want to download a file or set of files in an electronic, machine-readable standard data export format - possible such formats include Microsoft Excel (.csv, .xls or .xlsx) or Access (.mdb), .dbf database files, or delimited ASCII text (tab-, semicolon-, pipe-, or comma-delimited). I would like ideally one file to download that represents all of SDWIS - again not the API or the web site query interface. To simplify the effort and limit your staff”s workload, any data that is stored separately in relational tables may be supplied in separate individual electronic files along with the appropriate unique identifying fields that are meant to be used to join the information in a database system. Please also include any data dictionaries, code definitions, schema descriptions or other documentation required to accurately import and interpret the records.	6/14/2017

EPA-R6-2017-008383	Mr. Naseem Sani	Environmental Operations Inc.	A detailed FOIA request is attached	6/13/2017	

			<p>This letter serves as a formal request for information under the Freedom of Information Act, 5 U.S.C. §sect. 552. We request the following documents pertaining to the February 8, 2017 Informal Resolution Agreement between the U.S. Environmental Protection Agency (EPA) and the Georgia Department of Agriculture (GDA), which resolved External Civil Rights Compliance Office (ECRCO) Complaint No. 02NO-16-R4: 1. GDA&#8217;s final draft of its written procedures to ensure meaningful access to all of GDA&#8217;s programs and activities by all persons, including access by persons with Limited-English proficiency (LEP) 2. GDA&#8217;s final draft of its written procedures to ensure meaningful access to all of GDA&#8217;s programs and activities by persons with disabilities 3. GDA&#8217;s final draft of its grievance procedures for complaints filed under the federal non-discrimination statutes 4. Any documents or other materials concerning language access sent between the EPA and the GDA from February 8, 2017 to June 13, 2017. As these documents were drafted by a state agency, rather than a U.S. government agency, they are not exempt from disclosure under 5 U.S.C. §sect. 552(b)(5). 5 U.S.C. §sect. 551(i) (&quot;agency&#8217;) means each authority of the Government of the United States.&#8217; Moreover, the requested documents were not drafted to assist the EPA in its decision-making process, but instead were drafted by a state agency to fulfill its obligations with respect to an informal resolution agreement with the EPA. Because the informal resolution agreement concluded the EPA&#8217;s investigation and decision-making process, and because the GDA prepared the documents to create state procedures, rather than to assist the EPA in policymaking, the requested documents are not protected by the deliberative process privilege. All documents can be provided to us electronically either on CD-Rom or by email to documents@gaf.org.</p>	6/13/2017

EPA-HQ-2017-008340	Ms. Alison Gregor	PROPUBLICA	Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request: all Ethics recusal or counseling memos issued by the agency since Jan. 20, 2017. I would like to receive the information in the following format: electronic. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. This information is being sought on behalf of ProPublica, an independent non-profit news organization, for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities, specifically the determination of potential conflicts of interest of federal employees with decision-making authority over public policy, and the resolution of these conflicts by Designated Agency Ethics Officials. As a non-profit journalistic entity, ProPublica does not have the same commercial interests of other news organizations. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. I also ask that this request be expedited under terms of the Freedom of Information Act. Expedited processing is allowed for requests that show a 86Ccompelling need,86Cand ProPublica is primarily engaged in disseminating information, with an urgency to inform the public concerning federal government activity.	6/12/2017	Ex. 5, Ex. 6

EPA-HQ-2017-008223	Jason Su		Request for copy of the Univ. of California RFA proposal evaluation scoresheet. During a conference call with Mr. Mike Holloway on the EPA grant we applied for, we felt it was important for us to request a copy of the comments so we can improve on our proposal for future grant applications. We made such a request and Mr. Holloway responded with the following information: "During your recent RFA grant proposal debriefing, you requested a hard copy of the full reviewers' consensus score/evaluation sheets of your University of California Berkeley grant proposal. As indicated, I've contacted the EPA Office of Grants and Debarment (OGD) to obtain clarification on the policy about giving hard copies of the reviewers' consensus scoresheets to applicants. The EPA OGD typically does not release the hard copies of the scoresheets to applicants. OGD has confirmed that the applicants would need to submit a Freedom of Information Act (FOIA) request to the EPA for the consensus evaluation scoresheets. The scoresheets will not be released without the submission of a FOIA request from the applicant. Here is the detailed grant application information. We are grateful if you could share a copy of the evaluation scoresheet on the grant we applied for. EPA-R3-2017-008181	Jenny DeBoer	Stantec	I am seeking access to and/or copies of historic reports associated with the General Chemical Corporation site located in Claymont, Delaware (EPA ID DE154576698, 6300 Philadelphia Pike). I am most interested in subsurface and hydrogeological data (well logs, test boring logs, water levels) as well as groundwater analytical data. These data would likely been in the RCRA Facility Assessment for Delaware Valley Works South Plant (1986), RCRA Facility Investigation Phase I report (2003), RCRA Facility Investigation Phase II Report (2007), and RFI Summary and Presumptive Remedy for Proposed Industrial Redevelopment Area (2/26/2016). I was only able to obtain copies EPA documents (statement of basis, final decision) online. These data would be used to help refine a model we are preparing under the One Cleanup Program at a nearby property. Thanks in advance for your help, Jenny	6/7/2017
